### Product Description

Hook and Eye frame in dressing frame is an exercise in Montessori practical life where a child learns to use hook and unhook capabilities.

### Purpose

- To develop independence.
- To enhance a child's concentration and coordination.
- To develop a child's mathematical skill, such as one-to-one correspondence.
- To acquire coordination of movement.

### Exercise

- Start the exercise by first gently placing the frame on the mat
- Open the flap of the frame to show the child what is hook and what is eye
- Now, proceed to unhook by pinching the top part of the flap and pull the flap out gently so as to show the hook has been taken out of the eye
- Repeat the procedure with the rest of the hooks
- Next step is of hooking back. Start by pinching the top part of the flap and position your hand to fit the hook back into the eye.
- Gently scoop the hook down so that it slides easily into the eye.
- Repeat the same with the rest of the hooks.
- Invite and encourage the child to do this exercise once with you.
- Allow the child to do this exercise at his/ her table individually.

- Monitor the activity of the child and assist only when it is necessary.
