Product Description

Zip frame is an exercise in the Montessori practical life where a child learns the activity of zipping and unzipping. Zipping and unzipping is an activity done on various products, from clothes to school bags.

Purpose

- To help a child to learn how to zip themselves.
- To help a child acquire coordination of movement.

Exercise

- Demonstrate by first placing your thumb and index finger over the zipper.
- Place the other hand over the cloth for support
- Now, gently and slowly pull the zipper down till the bottom of the cloth
- Make sure the pin is out of the holder at the bottom of the cloth.
- Open the cloth fully and inform the child that this activity was for unzipping.
- Next, proceed to zip the cloth by first pinching the zipper handle and placing it in the holder.
- Gently hold the zipper holder with the other hand for support
- Now, start moving the zipper in the upward direction once you have the grip of the handle and the awareness of the zipper being placed in the holder.
- Continue till the top and press the zipper to lock.
- Encourage the child to perform this activity once in front of you so that the mistake can be corrected.

- Allow the child to do the activity individually but monitor the movements of the child while he/ she is doing this activity.

Why to buy from us?
