Tabs

Product Description

Color box- secondary contains, 22 tablets of primary and secondary colors. The color box-secondary contains a pair colors including red, blue, yellow, orange, green, purple, pink, gray, brown, black and white. The color tablets are made using good quality wood and non toxic materials so that they are durable and for children's rough use.

Purpose

- To teach the child visual discrimination of the primary colors and secondary colors.
- To help the child to improve his/her matching skills and distinction of different colors
- To further develop the chromatic sense and vocabulary expansion.

Exercise

- Demonstrate by taking out the tablets out of the box and placing them on the mat
- Remove all the tablets and lay them out randomly on the mat.
- Select one tablet and place it on the side
- Pick the tablet of the same color and place it next to the first selected tablets so that they match.
- Now, pick the next color tablet and proceed with the exercise as before.
- Continue until all the tablets have been matched.
- Allow the child to perform this exercise individually and assist him/ her only when they is a necessity.
- Monitor the children's movements and their color arranging order.

Related Exercises

There are simple pairing activities under practical life exercises which can be practised such as sorting buttons, pairing nuts to the bolts, lids to the bottles, keys to the locks etc. It can be related to the pairing done under dressing frames such as button to the loop, hook to the eye etc.

This material can be related to touch tablets, fabric box, thermic tablets, thermic bottles, stereognostic bag 2, smelling bottles, tasting solutions, sound cylinders. It can also be related to activities under language, maths and culture.

Product Maintenance

- Store in dry and room temperature.
- Do not expose to direct sunlight.
- Do not touch the coloured area
- Hold on to the frame to prevent fading of colour.

Why to buy from us?
